#### A Congressman Caned.

Special to the Gazette. Washingron, Sept. T .- Evidences multiply that more scandles have attached to the present congress than any other body known to the narisamentary history of the country. Following in the wake of Joe Cannon's blackguardism and Kennedy's onsianght upon Quay, an episode occurred late last night which furnishes a dainty mousel by roll under the tongues of the gossips of the Federal city. A prominent Republican member of the house, of imposing presence, who professes great morality, was promenading down Pennsylvania avenue about midnight last night with an elegantly attired lady clinging to his arm. So engroused was he with his enchantess that he did not notice a carriage driven rapidly up to the sidewalk, from which sprang a man who immediately proceeded to rain blows in quite k succession upon the face of the congressman, who took to his heels and ran like a startled deer, while his assailant followed denouncing him as a scoundrel whom he proposed congress than any other body known to the nonneing him as a scoundre! whom he proposed to punish for taking advantage of his acquaint-ance with his family to corrupt his wife.

House and Senate Probabilities. Washington, Sept. 7 .-- Another day has been added by the senate to the limit fixed for debate on the tariff bill, and in accordance with this arrangement Monday will be devoted to consideration of the sugar achedule in connection with the reciprocity question, speeches being limited to thirty minutes. A motion on amendments without debate will begin Thesday and continue until all are disposed of. When that time will brive can not be stated with exactness, for an iong as the bill is before the senate it will be onen to amendment, but when no more amendiong as the bill is before the senate it will be open to amendment, but when no more amendments remain to be offered and the vote is on the passage of the bill six hours will be given to general debate. For the Republicans, Senators Ingails and Aldrich will probably occupy the time. For the Democrats, alsears, McPherson and Carlisis, and possibly Vest. The final vote on the bill will not be taken, it is believed, until near the close of the week.

IN THE WOUSE.

District of Columbia business will probably occupy the attention of the house to-morrow. Tuesday the Virginia contested shection case of Langston vs. Venable is to be considered, and it will be followed closely by the South Carolina contested case of Miller vs. Elliott. In both of these cases the election committees propose to seat both colored Republican contestants.

Later in the week the appropriation committee expect to call up the last of the appropriation bills and general deficiency bill, which has been materially amended by the senate.

The tariff hill is among the possibilities, and if it should be returned to the house this week by the senate, accompanied by a request for a conference, there is little doubt but that the request for a great will see granted and the bill thrown into conference directly, as there seems to be no description of the results.

#### Campaign Literature. Special to the Gazette.

Washington, Sept. 5. - Representative Flower, chairman of the Democratic congressional campaign committee, has concluded to distribute 50,000 copies of Congressman lockery's speech in regard to the extravagant appropriations made by congress and 20,000 copies of Mr. Bland's speech on

that is the tariff bill. Even that will not do unless its passage

should be enhancement.

The Republican members of the elections committee have been extremely anxious to rob one or two more Democrats of their scals, but they will have a hard time to induce the sweare Republican who has made his arrangements to go away to neglect his campain for the purpose of staying here to wrangle over matters of that kind.

To-day there was a good deal of pairing going on between the Democrats and Republicans as they are preparing to leave for their respective homes next Membra and Tuesday. In the Missouri delegation alone the following members have made their plans to go West next week: Messay. Dockery, Heard, Bland, Norson, Wilson, Kinsey, Wade and Neidringhaus. Few, if any, of these members.

John Burns, the Labor Organizer.

Special to the Gazette. LONDON, Sept. 7 .- One of the minor incidental results of the late trade union's congress at Liverpool is the readjustment of the relative ranking of great labor leaders in the estimation of their followers. Hitherto John Burns was unquestionably prominent, and he had came to be regarded as little short of infallible in all matters of importance to the interests of labor. This fame rested upon his phenomenal success as an organizer of men and as manager of strikes. But throughout the congress his conduct as marked by a domineering manner which led to frequent disagreeable scenes and to the delay of business. It became ver, evident that the very qualities which fit him to conduct a concrete fight against capital unfit him for deliberation and discussion on abstract questions of general policy. On the other hand Ben Tillett and Tom Mann, who have always yielded supremacy to Burns in his special line of organization and the handling of men, easily proved themselves his superiors in debate and counsel, Burns friends now say that he himself realizes his strongth lies "another direction; that this was his first experience in such a convention and that as he is entirely unselfish in his devotion to the cause he will profit by the result, and hereafter rest content with his leadership in the actual battle-field of labor and capital, leaving the honors of debate to his colleagues.

Six Rowdies Take a Fancy to a Hebrew's Luxurlant Beard and a General Fight Results-A Cowboy Wounded.

CHICAGO, ILL., Sept. 7 .- A "pipe full of whiskers', was the singular demand upon Bonard Cohen by six young rowdies passing through a Hebrew colony on South Union street this afternoon, The six made a dash to secure the whiskers, plucking wildly at Cohen's ample beard, but were desperately resisted by Cohen and his wife, who were speedily reinforced by nearly 100 other Hebrews. The leader of the reinforcements was Jacob Stiff, a neighbor of Cohen's, just returned from a ranch in Montana. The cowboy Hebrew made things lively for the boodlums, during a brief space, but rashly believed that a revolver in the hands of one of them merely meant a bluff, attempting to completely vanquish the six. Stiff received a bullet in the forehead. He was taken to the hospital in a dying condidition. Four of the hoodlums, John Foss, Harry Clark, Frank Petzer and Frank Mason, were arrested, but the identity of the cowboy's slayer remains a mystery.

Smallpox is causing terrible havor in the interior of Guatamala. The National railroad is preparing to run excursions over the entire line on the national feast on September 16.

President Diaz' plan to reduce the army, which is to consist of volunteers, is only known to a few yet, but excites universal comment, as this will eliminate the bad, criminal element from the army, which hereafter will be principally used on northern and southern frontiers and in the territory where Indians exist. Mexico has now an immense number of officers, some having seen service, others who are not being supported under the re-tied list, and if these are disbanded will cause the saving of several million dollars annually, but this will have to be done gradually, so as not to offend over 150 generals and a proportionate number of other officers, though perhaps many of them will be employed in national guards and other employments in different states.

Several local papers have taken up the anti-lottery question but with no success, though the government some weeks ago suppressed the so-called zoological rafile, but granted a new charter in Pueblo.

It is reported that the telegram from the late Gen. Barrundia's family to President Harrison originated here and no: in Oxaca, where the family is, and the family afterwards fathered the idea.

The story of Mizener seeking refuge in a water closet from the daughter of Barrundia is indiguantly denied by him, and manufactured here, most probably, where many similar stories have been manufactured.

#### The Southern Pacific's New Accounting System. Special to the Gazette.

SAN ANTONIO, TEX., Sept. 7 .- The Southern Pacific railway has adopted[a new system of accounting. It is known as the "Maul system." Under it almost the entire accounting of track keeping, repairing, wages and so forth is removed from the auditor's and office and placed in the offices of the division superintendents. Hereafter each division superintendent will be required to keep and present these accounts in addition to those heretofore required of him. This necessitates a large increase of the force in each division superintendent's office, but so far no increase has been made, consequently the men are growling. The Southern Pacific is doing an enormous business this year moving crops, and has been steadilly raising salaries in the division superintendent's
